

PH61

Shake Freezer

Four Flavor, Pump

Features

Offer four separate shake flavors: chocolate, vanilla, strawberry and an optional flavor. Portion controlled shake dispensing for high volume milkshake production.

Heat Treatment System

Provides a daily heating and cooling cycle to safely maintain dairy products up to two weeks before a complete disassembly and cleaning is required.

Freezing Cylinder

One, 7 quart (6.6 liter).

Mix Hopper

One, 20 quart (18.9 liter). Refrigerated to maintain mix below 41°F (5°C).

Indicator Lights

Mix Low light flashes to alert the operator to add mix. When the Mix Out light flashes, the unit automatically goes into Standby mode to prevent damage.

Electronic Controls

Viscosity is continually measured to serve consistent quality shakes. The LCD (Liquid Crystal Display) readout will identify temperatures in the hopper or freezing cylinder at any point of operation. History of temperatures and times during the last 13 heat cycles may be viewed.

Standby

During long no-use periods, the standby feature maintains safe product temperatures in the mix hopper and freezing cylinder.

Syrup System

Shake flavors are selected from touch pads. Self-contained air compressor delivers shake syrup from three, 1 gallon (3.8 l) syrup tanks located in the lower front compartment. Frozen shake mix and syrup automatically blends to dispense the chosen flavor. Use only single strength syrup, free from pulp and seeds.

Specifications

Electrical

One dedicated electrical connection is required. See the Electrical chart for the proper electrical requirements. Manufactured to be permanently connected. Consult your local Taylor distributor for cord & receptacle specifications as local codes allow.

Beater Motor

One, 1.0 HP

Refrigeration System

One, 11,000 BTU/hr. R404A. (BTUs may vary depending on compressor used.)

Air Cooled

Minimum Clearance: 6" (152 mm) on all sides. Minimum air clearances must be met to assure adequate air flow for optimum performance.

Water Cooled

Water inlet and drain connections under side of base 3/8" FPT.

Options

- Faucet
- Hopper Locks
- Shake Cup Dispenser

Continuing research results in steady improvements; therefore, these specifications are subject to change without notice.
