

TOTALLY DIFFERENT.

C812

Electric Two-Sided Grill

Features

One touch menu selection automatically provides accurate TIME, TEMPERATURE, and GAP settings for every product.

Programmable Controls

Microprocessor controls are programmable for simplified operator operation. Also offers flexibility for future menu items and product specification changes at the restaurant level.

Upper Platens

Two upper platens will close automatically to the preset gap setting with the touch of one button. Air cylinder system provides quiet, simple, trouble-free operation of the upper platen. As a safety feature, platen will automatically open at loss of power, or if an obstruction is detected.

Precise Automatic Gapping

Solid platform with 3-point reference plane and fixed (home) reference point. Once programmed, the upper platen automatically achieves accurate and consistent gaps, every time. Precise, repeatable gapping assures product safety and better quality finished product.

Cooking Zones

Three separately controlled cooking positions. Three independent heating elements in the lower cooking surface, and two in the upper platen, assures even temperatures and quick recovery.

Side-To-Side Release Material

Protects entire upper platen cooking surface and makes cleaning easy. Improved install and removal process away from hot surfaces.

Patty Cook Position Placement Guide

Lower cooking surface is etched for a permanent patty placement guide for two-sided cooking.
